

XDK Series

Vacuum Pump Motor

Integrated and standalone products are both available for collaborative development, with support for customization of power ratings and speed specifications.

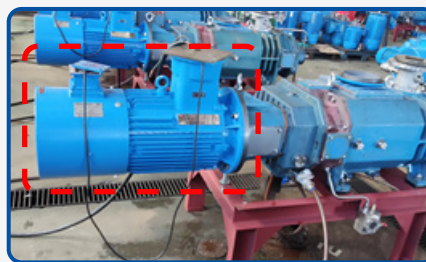

Technical Data

Rated Power	Rated Speed	Efficiency	Current	Frequency
kW	RPM	%	A	Hz
4	4800	IE5	7.6	320
7.5	3000	IE5	12.5	200
11	3000	IE5	19.8	200

Product advantages

- High efficiency**
 Reaching above IE5 standard.
- Visual Monitoring**
 Real-time Motor Rotation Display.
- High Reliability**
 Liquid Cooling & Potting for Harsh Environments.
- Compact Size**
 The integrated design significantly reduces the overall footprint compared to conventional motors.

Case

Induction Motor

PMS Motor
