

BH1003

10.1 INCH INTELLIGENT LIVE BROADCAST ALL-IN-ONE MACHINE

The BH1003, developed by Bihuo Intelligence, is a cutting-edge product designed to revolutionize your live streaming experience. Equipped with a 4K UHD camera, a 10.1-inch high-definition IPS display, a portable desktop stand, and the powerful Rockchip RK3588 processor, this device meets the diverse demands of today's live streaming industry.

Featuring built-in live streaming software, one-click setup with massive templates, seamless green screen chroma keying, and easy operation for beginners, the BH1003 ensures effortless broadcasting. With 100% sRGB color accuracy, Android 12 OS, and dual-band Wi-Fi, it delivers high performance and versatility for professional streaming.

It supports popular international platforms such as Twitch, YouTube Live, Facebook Live, and others, providing an unparalleled live streaming experience.
