

BH4024

AI SIMULTANEOUS TRANSLATION EARPHONES

The BH4024 AI Translation Earphones offer seamless cross-language communication with advanced artificial intelligence. Instantly recognizing and translating multiple languages, including major global languages like English, Spanish, French, German, and Chinese, they ensure accurate translations without delays. Whether for travel, business meetings, or daily conversations, these lightweight and ergonomic earphones provide comfort during extended wear. Equipped with environmental recognition technology, they filter out background noise for clear translation sound in any environment.
